Appendix 1

Journal infographics

Data representative of the period January – December 2022

■ ecpr.eu

Journal infographics

The following infographics offer a statistical overview of ECPR's co-published journals.

**Figures are taken from reports presented at our annual spring publications retreat.**

We have made the infographics as accurate as we can while keeping them reader friendly.

However, journals and publishers record and report information in different ways, so like-for-like comparison is not always possible.
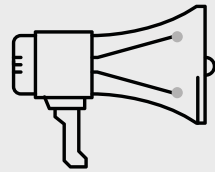

To find out more information about a journal, contact the editors directly.

Information in this document is representative of the period January – December 2022. The publication process means that some figures may include data relating to previous years.
